Dear Director:

On January 29, 1986, The Federal Protective Service is hosting a Seminar on "Bomb Threats and Searches" for Federal Agency security and protection officials in the National Capital Region. The Seminar will be held from 9:00 a.m. to 12 noon and will take place at the FPS training facility in Building 202, Southeast Federal Center (map enclosed).

This is the second in the series of Seminars conducted by FPS to provide information and guidance to certain key officials of GSA facilities in the Metropolitan Area of Washington. Officials responsible for making decisions on whether to evacuate buildings will receive invaluable information during this Seminar.

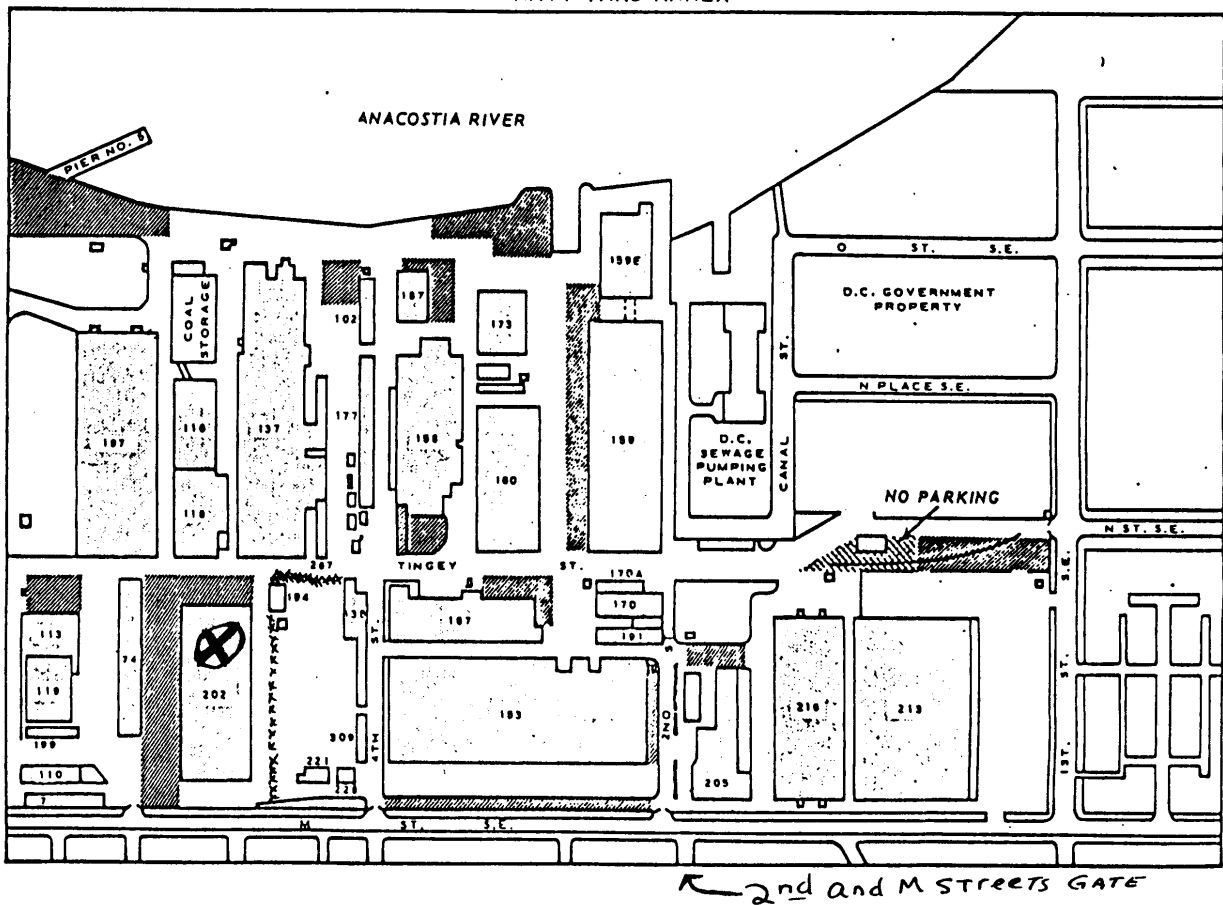

The Bureau of Alcohol Tobacco and Firearms will provide an agent experienced in explosive detection to assist us in the seminar. For additional information please contact me on 472-2103.

FRED S. GRANT
Deputy Chief, Federal
Protective Service
